

# VOCAL ACOUSTIC MONITOR™

Patent Pending

## Why VAM™?

*VAM allows you to hear yourself as others hear you*

*VAM users can sing to themselves without others around hearing*

*VAM used with a microphone can be used live or at practice with or without external monitors*

*VAM captures the true qualities of the voice and delivers it to the ear simultaneously*

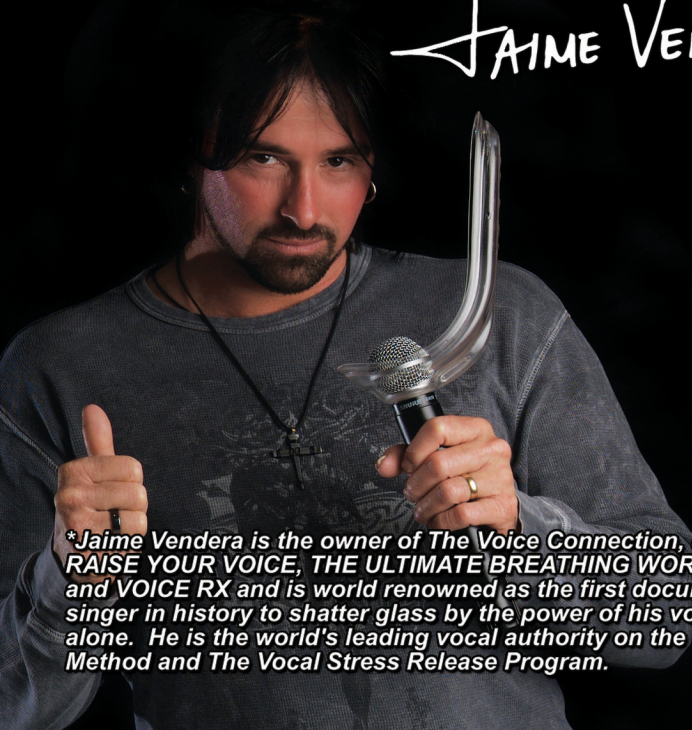

*VAM promotes zero feedback to the microphone*

*VAM protects the ear by blocking external noises*

*"This product is solid and uniquely shaped to reach from the ear all the way to the mouth. I could not believe the difference in sound. It was 10x better than just cupping my ears. Let me tell you, these things are amazing and will become as common as the microphone clip."*

JAIME VENDERA

*\*Jaime Vendera is the owner of The Voice Connection, author of RAISE YOUR VOICE, THE ULTIMATE BREATHING WORKOUT and VOICE RX and is world renowned as the first documented singer in history to shatter glass by the power of his voice alone. He is the world's leading vocal authority on the Isolation Method and The Vocal Stress Release Program.*

*VAM protects the voice from overstraining*

*VAM can be used anywhere you want to hear yourself*

*VAM integrates to the microphone on or off the microphone stand*

*VAM for Speech Pathology, the Oratory Professional even Choir Practice*

*VAM is great for practice on the road or in a studio*

*VAM helps maintain perfect pitch and promotes better vocal health*
